

GRID FLEXIBILITY • CAPACITY • STORAGE

Standalone Battery Energy Storage Systems (BESS)

We are seeking contracted battery storage that solves a real grid or customer need.

WHAT KADAK ENERGY SYSTEMS IS LOOKING FOR

OPPORTUNITY TYPES	Standalone BESS • utility storage • capacity/tolling projects • grid-supporting storage
TARGET SCALE	100 MW / 200 MWh+ preferred
PROJECT STAGE	Awarded, contracted, construction-ready, construction-stage and operating
GEOGRAPHY	India grid nodes, renewable corridors and load centers where storage provides measurable system value
COMMERCIAL PROFILE	Capacity, tolling, availability, VGF-supported or other contracted revenue structures preferred
PROJECT READINESS	Interconnection, revenue contract, technology/vendor plan, warranties, augmentation assumptions and permits
HOW WE CAN PARTNER	Acquisition • development/construction capital • JV • strategic platform investment • operating acquisition

WHAT GETS OUR ATTENTION

Storage with clear revenue visibility and a defined use case: peak shifting, reliability, capacity, renewable firming or congestion relief.

SEND US

Project teaser / IM • capacity & location • stage • land/site control • interconnection • PPA/offtake • permits • capital need • data-room link

WHO SHOULD CONTACT US

Project owners • developers • IPPs • founders • brokers • bankers • advisors • strategic partners • utilities and qualified counterparties

ABOUT KADAK ENERGY SYSTEMS

KADAK Energy Systems is a cross-border energy infrastructure investment and development platform focused on utility-scale renewable power, energy storage, grid-supporting infrastructure, operating portfolios and select energy-company investments. We work with developers, owners, utilities, governments, strategic partners, advisors and institutional capital to advance credible opportunities from origination through operation.
