

FIRM & DISPATCHABLE RENEWABLE ENERGY

## Wind-Solar Hybrid / FDRE / RTC

We seek hybrid projects designed around delivery certainty, not simply installed capacity.

### WHAT KADAK ENERGY SYSTEMS IS LOOKING FOR

|                    |                                                                                                                    |
|--------------------|--------------------------------------------------------------------------------------------------------------------|
| OPPORTUNITY TYPES  | Wind-solar hybrid • FDRE • RTC renewable power • hybrid portfolios                                                 |
| TARGET SCALE       | 100-750+ MW preferred                                                                                              |
| PROJECT STAGE      | Contracted, late-stage development, construction-ready and operating                                               |
| GEOGRAPHY          | India markets where complementary renewable resources and grid access support firm delivery                        |
| COMMERCIAL PROFILE | Bankable long-term offtake with defined delivery profile, scheduling obligations and payment security              |
| PROJECT READINESS  | Land, interconnection, resource studies, storage integration where applicable and a realistic delivery-shape model |
| HOW WE CAN PARTNER | Project acquisition • JV • development/construction capital • platform partnership • operating acquisition         |

### WHAT GETS OUR ATTENTION

Projects with complementary resources, strong interconnection and contracted delivery obligations that can support reliable power around the clock.

#### SEND US

Project teaser / IM • capacity & location • stage • land/site control • interconnection • PPA/offtake • permits • capital need • data-room link

#### WHO SHOULD CONTACT US

Project owners • developers • IPPs • founders • brokers • bankers • advisors • strategic partners • utilities and qualified counterparties

### ABOUT KADAK ENERGY SYSTEMS

KADAK Energy Systems is a cross-border energy infrastructure investment and development platform focused on utility-scale renewable power, energy storage, grid-supporting infrastructure, operating portfolios and select energy-company investments. We work with developers, owners, utilities, governments, strategic partners, advisors and institutional capital to advance credible opportunities from origination through operation.
