

GENERATION + STORAGE

Solar / Wind + Battery Storage

We want integrated renewable-plus-storage projects where storage strengthens the commercial proposition.

WHAT KADAK ENERGY SYSTEMS IS LOOKING FOR

OPPORTUNITY TYPES	Solar+BESS • wind+BESS • hybrid+BESS • co-located renewable storage
TARGET SCALE	100 MW+ generation with appropriately sized storage
PROJECT STAGE	Late-stage development, ready-to-build, construction-stage and operating
GEOGRAPHY	India renewable zones with constrained or valuable grid access and credible delivery requirements
COMMERCIAL PROFILE	Contracted offtake preferred, especially where storage supports firming, peak delivery or curtailment capture
PROJECT READINESS	Coordinated land, grid, generation and storage design; equipment/warranty plan; dispatch assumptions and COD pathway
HOW WE CAN PARTNER	Project acquisition • JV • development/construction capital • recapitalization • portfolio acquisition

WHAT GETS OUR ATTENTION

Projects where batteries are integral to the revenue proposition - not an expensive accessory added after the fact.

SEND US

Project teaser / IM • capacity & location • stage • land/site control • interconnection • PPA/offtake • permits • capital need • data-room link

WHO SHOULD CONTACT US

Project owners • developers • IPPs • founders • brokers • bankers • advisors • strategic partners • utilities and qualified counterparties

ABOUT KADAK ENERGY SYSTEMS

KADAK Energy Systems is a cross-border energy infrastructure investment and development platform focused on utility-scale renewable power, energy storage, grid-supporting infrastructure, operating portfolios and select energy-company investments. We work with developers, owners, utilities, governments, strategic partners, advisors and institutional capital to advance credible opportunities from origination through operation.
